OBJECTIVE

Seeking a position in a dynamic and challenging environment where I can learn, upgrade my skills, and add value to the organization I represent.

TECHNICAL SKILLS

Programming languages: Java,Python,HTML,CSS,JavaScript
Database: MySQL

PROJECT EXPERIENCE

Nobel Classification Approach For Color Image Segmentation   Jan 2024 - July2024

- It was an research based project where developed a novel classification-based algorithm to enhance the accuracy and efficiency of color image segmentation. And improved segmentation quality compared to traditional clustering techniques in complex and low-contrast images.
- Technologies used : Python, Matplotlib, OpenCV.

IOT Based Fire Alarm System Using Java   Feb 2022 - May2022
Graduation Internship Project

- In this project we designed IoT-based system to detect fire hazards in real-time, trigger automatic alerts and sends instant notifications via sms.
- Technologies used : Springtoolsuite4, DBeaver, IOT device.

EDUCATION

Master's Degree in Computer Application (CGPA-7.70)

Regent Eduaction & Research Foundation Group Of Institution Under MAKAUT

2024

Bachelor's Degree in Computer Application (69.05%)

Vivekananda Mahavidyalaya Under The University Of Burdwan

2022

Higher secondary Education (60.2%)

Rajyadharpur Netaji Girl's High School ,WBCHSE

2019

Secondary Education (36.14%)

Rajyadharpur Netaji Girl's High School ,WBBSE

2017

PERSONAL DOSSIER

Date of Birth   22 October 2001
Language   Bengali, English, Hindi
Hobbies   Listening Music, Captured Memory In My Diary, Photography ,& Travelling.
